In The New York Times bestselling author's heart-warming new novel, Coraline features author Neil Gaiman's unique magical-realist take on a traditional children's tale. It's perfectly illustrated by one of the world's most acclaimed and beloved graphic novelists, Dave McKean. Cottontail Adventures takes place in a parallel world with a tiny version of the real world inhabited by animals with giant ears. When hedgehog Cornelius and rabbit Coraline are swept away from their home, they must discover what happened and what's been happening to them. In this tutorial I will show you how to make the character animations for a running animation. I will use a skeleton model from the famous game "Assassin's Creed". The character in the video you see in the end is a girl that runs with her hands in the air like a runner.
