About This Game

Scrunk is an online team-based building and raiding game. Fight off mechs and infiltrate the enemy team's base while building up and defending your own.

build your base

Fortify your team's base with traps, walls, barbed wire and turrets to ensure your core block is protected at all times from incoming raiders.

raid the enemy

Scavenge scrap from mechs and world events to craft explosives, bombs and guns to destroy the enemy's core block.

fight for scrap

Dodge blast-zones or wait around to collect the scrap left behind. Fight off hordes of skitterers and shoot drones out of the sky to scavenge them for loot and scrap.

Climb the ranks

Win matches to increase your global player rank. Advance from a mere Duster to a revered Junklord.

Free For All

An alternate solo mode with our unique take on the Battle Royale format.

Title: Scrunk

Get it...but don't keep it. **This is a copy of my review for the [original game](#). Most of my time is going into that one. *For now.***

There are few things new buyers should be aware of:

1. This game is not in any shape or form similar to Transport Tycoon. You won't be optimizing routes, building long-lasting production chains, planning complex routes for dozens upon dozens vehicles, etc. etc. Instead you will be managing up to 15 not-so-smart trucks making sure they can fulfill demands of each and every town you find. Which can get a bit hectic.

2. This game is for patient people. You probably won't experience the real difficulty it can throw at you for a while (and by that I mean many hours of preparation and unlocking every tool the game can offer you)

3. Many reviews mention "having to overcome UI", well, it got much better. And it keeps improving. In all honesty, being late to the party. I haven't had much trouble with figuring it out.

4. This is not an achievement spam game. Each and any of the achievements require work. Sure, some are extremely easy, but some others are very hard.

As for the game itself, it's the most addicting purchase I made in years. After playing for few hours I just bought everything that was available at the moment, because I knew I'll play it eventually. It might not be for everyone, probably far from it, but it's a great game if you can see its charm.. Only played it for about 1 hour 30mins but so far its been a lovely experience, great music and sweet graphics and some cool gameplay makes it worth checking out.. Hats off to producers/publishers and devs of this game. It's older but OMG, the multiplayer actually works! Unlike 80% of the crap out there. Flawless install, nice GFX and easy to get a game going with your homies. Had it installed and playing with my bros in less than 5 minutes. Highly recommended!. This game is abandoned! , last update was in 2016. Its now 2019! and not a single update! WHY?

Not many replablilty choices. I like the story, but there could have been many many improvements for a non-linear kind of game it turned out to be. I thoroughly enjoyed the story and felt a type of connection, but wished it was a bit more. I did notice alot of possible options that proved linear for the most part. Being a pre-teen the entire game did leave options for growth, but proved me wrong when it just ends suddenly a core character dies and the game ends. I would like to add, it feels like there is no point of relationships or age. This is a male pre-teen with hormones growing up during puberty. He didn't even think about sneaking a peek on Lizzy while she showered? Adolescence for short. . Sadly I would not recommend this.. The gameplay seems pretty decent (and the battle mechanics particularly interesting), but after thirty minutes or so I've had to set this game aside (at least for the moment) because I simply can't take any more of the purple prose, especially given how often it descends into complete doggerel in what is presumably an attempt to sound "poetic." This isn't even remotely funny-bad, as Bulwer-Lytton contest entries, but simply painful-bad, the hail-like slew of obstreperous adjectives hurtling down in contradictory fashion, each a shard of ice with its own unique, cutting edges inflicting a slightly different shape of wound on my suffering literary sensibility, to combine to envelop me in a veil of unseeing mist, muffling prosaic taste with a bitter aftertaste of a poison blade. (On the other hand, if that sentence doesn't bother you, go right ahead and dive in to the game.). oh look an old game i got a long time ago, i remember it sucked, also they are asking 20 dollars for this now?? even on sale i wouldnt buy this hot steaming pile of garbage. Super Mixtape has a unique take on the side scrolling platformer, with challenging controls and an upbeat rhythm.

You traverse several levels, unlocking new beats and mastering the unique movement mechanics to reach your goal, which is of course, a boombox!

There's nothing to dislike about this game, it's simple yet complex, great fun, and I can't wait to see what comes of it. It has potential to be a top indie title.

Super Mixtape, more like Super Funtape!. On one hand, it's actually pretty fun, with surprisingly good graphics and music. On the other hand, the upgrade system is awkward, progression is slow and linear, and nothing says professional quite like a Unity Personal splash screen.

It's \$3 and it's Polandball*. Go for it.

*I'm not sure who, if anyone, owns the rights to this, so if you want this game I'd get it while you still can.. Bored in 2 minutes. The painful absence of true controller support, no analogue and controller doesn't work in menus, leaves this game feeling like a shoddy half baked port that plays much much better on the consoles than it does on PC. If you want to play this game, buy it on Xbox.
